Early Career Researchers Talk Series

## **Nanne Dominick**

Johannes Gutenberg University Mainz

Overview of ongoing basic research and planned research projects on Substance-Related and Behavioral Addictions, combining electrophysiological measures with Implicit Associations

Thursday, 27.06.2024, 13.00 h (1 pm)

**Nanne Dominick** obtained her Master of Science in Psychology and is currently doing a PhD and training to become a psychological psychotherapist in psychodynamic at the Johannes Gutenberg University Mainz. She also worked as a research assistant in Charité- University Medicine Berlin and Medicine University Hospital Eppendorf on projects that focused on reward processing and substance use disorders.
